

HI-TECH GAS SKIDS LLP

Your gas solutions, simplified.

PRODUCTS

- Metering & Regulating Station
- Service Regulator Module
- District Regulating Stations
- Gas Pressure Train

METERING & REGULATING STATION (MRS):

- We manufacture Metering and Regulating Stations complying to T4S-PNGRB requirements.
- Skid size from 1" to 8", Class 150#, and 300#
- Twin Stream MRS, Single Stream MRS and Wall Mounted MRS

SERVICE REGULATOR MODULE (SRM):

We provide industry best service regulator module using reliable service regulator make.

- Range: 10 SCMH, 25 SCMH, 50 SCMH, 100 SCMH, 200 SCMH
- Inlet Pressure: up to 6 Bar
- Outlet Pressure: 110 mbar, 350 mbar, 500 mbar

DISTRICT REGULATING STATION (DRS):

- We manufacture District Regulating Stations complying to T4S-PNGRB requirements.
- Skid size from 2" to 8", Class 150# and 300#
- Application Area: PNG Network

GAS PRESSURE TRAIN SKID:

A gas train is a system designed to transport and regulate gaseous fuels, such as natural gas or propane, from the supply source to a burner. It ensures that the fuel is delivered at the correct pressure and flow rate, which is crucial for efficient combustion and safety in various industrial applications.

Importance of Gas Train Systems:

Efficiency: A well-designed gas train allows for optimal combustion, minimizing fuel waste and maximizing heat output.

Safety: Integrated safety features help mitigate risks associated with gas leaks and pressure fluctuations, ensuring safe operation.

NATURAL GAS SKID MAINTENANCE:

We are providing repairing and testing functionality of natural gas skids. We provide complete LDT with certification along with overhauling of all the valves on the natural gas skid with testing report. Natural gas skids are required to be certified annually to avoid closure of the gas supply.

ABOUT US!

Hi-tech Gas Skids LLP is promoted by technocrats with almost 45+ years of cumulative experience associated with city gas distribution and process industry.

We are manufacturing multi-purpose custody transfer gas skids for natural gas and LPG application including design, engineering, procurement and assembly.

TEAM MEMBERS

Mr. Rushi Patel –Managing Director

- He is associated with Hi-tech Services for more than 17 years and has experience in control valves.

Mr. Sunil Patel–Director, Operations & Production

- He was associated with gas manufacturing company and has experience of more than 15 years in gas skid manufacturing.

Mr. Bipin Patil–Business Development

- He was associated with GSPC Gas (Now Gujarat Gas Ltd.), gas skid manufacturing company and currently operating firm National Instruments Solutions for Gas meters and EVC. He has more than 16 years of experience in CGD industry.

Factory Area: 10000 SqFt

Office Address:

Hi-tech Gas Skids
324, Kanha capital,
Baroda high school lane, Alkapuri,
Vadodara-390007, Gujarat, India

Factory Address:

Hi-tech Gas Skids
Plot# 528, Manjusar GIDC, Savli,
Vadodara- 391775, Gujarat, India
